KNX Tech Forum

KNX devices development overview

KNX Tech Forum - KNX devices development overview

Agenda:

- The device concepts
- The device journey
- Useful tips
- Live hands on
- Q&A

KNX Tech Forum - KNX devices development overview

The device concepts:

- Architecture
- KNX key points
- Standard approach on standard philosophy

KNX Tech Forum - KNX devices development overview

The device journey:

1. Design and manufacture of engineering samples
2. CE (or equivalent) conformity
3. Field test
4. Mass production and worldwide sale

KNX Tech Forum - KNX devices development overview

The device journey (KNX):

1. Design and manufacture of engineering samples
2. CE (or equivalent) conformity
3. KNX certification
4. Field test
5. Mass production and worldwide sale

KNX Tech Forum - KNX devices development overview

Useful tips:

- Udemy: <https://www.udemy.com/course/knx-manufacturer-tool/>

(please get in touch with jesus.arias@knx.org to check if there are discounts possibilities)

- PPT Presentation “dev2-tools”, used in the latest MT workshop given by KNX

KNX Tech Forum - KNX devices development overview

Live hands on:

- MT project example for KV 2.5 (overview and build)
- KV 2.5 registration example (overview and submit)

KNX Tech Forum - KNX devices development overview

Q&A:

- Your turn, any question?

Thanks.
